glass

Exterior  
Wall  
Signboard

Solar  
panel

Neutral: Alcohol-based

Oil mist from exhaust gases in the air adheres to surfaces, and dust and dirt then accumulate on top of it. The photocatalyst coating breaks down and removes this oil, so rain or water also washes away the accumulated dirt.

Super  
hydrophilic

Rain or water washes away the dirt.

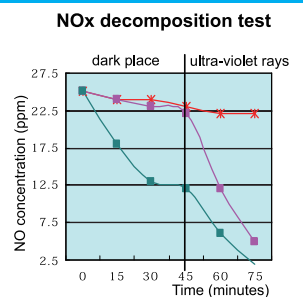

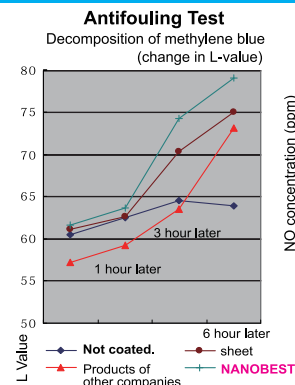

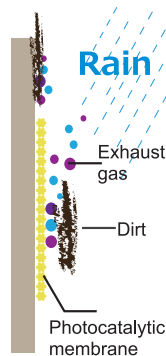

Self-cleaning

Water  
repelency

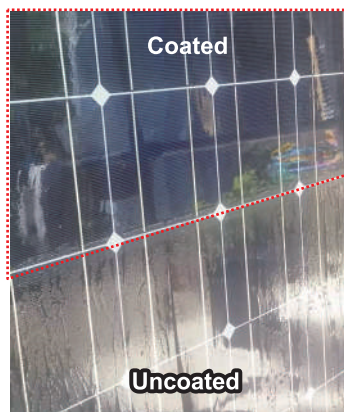

Coated

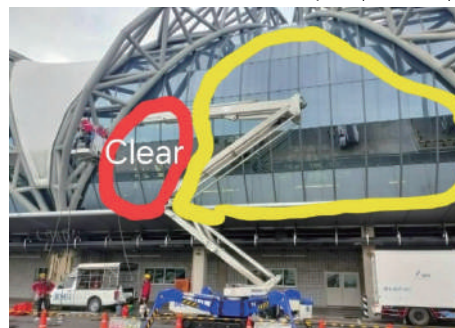

## Solar Panel

Maintaining a clean state prevents power output degradation and reduces cleaning effort and costs.

## Glass Wall

Suvarnabhumi International Airport (Thailand)

Shower Room
