about lack of vegetables?

Are you concerned about
beauty and health?
Are you on a diet?

日本製
MADE IN JAPAN

Contents: 250mg x 30 tablets

Chalcone, a unique ingredient that promotes beauty and health

Chalcone, a polyphenol species unique to Ashitaba, is said to work on troublesome oils and excess water and is helpful for diet support. It is also said to help prevent neglecting the health cycle, making it a recommended ingredient for those concerned about their lifestyle habits.

ASHITABA

It is rich in vitamins, minerals and protein.

We only use high-quality Ashitaba leaves that are pesticide-free.

Ashitaba, a rare gem in the world of nutrition, boast five times the vitamin A potency of carrots, the vitamin C of four lemons, eight times the potassium of bell peppers, the vitamin B2 of 28 cloves of garlic, and the iron of three bunches of spinach. Moreover, Ashitaba offers a comprehensive nutritional profile rich in nutrients such as vitamins essential for health and beauty, as well as dietary fibre and minerals. They also boast a high antioxidant effect that is twice that of prunes and six times that of kale, ensuring a robust health boost.
